New Features – Responsive Web Sites & CMS

- **AMP version of article pages**

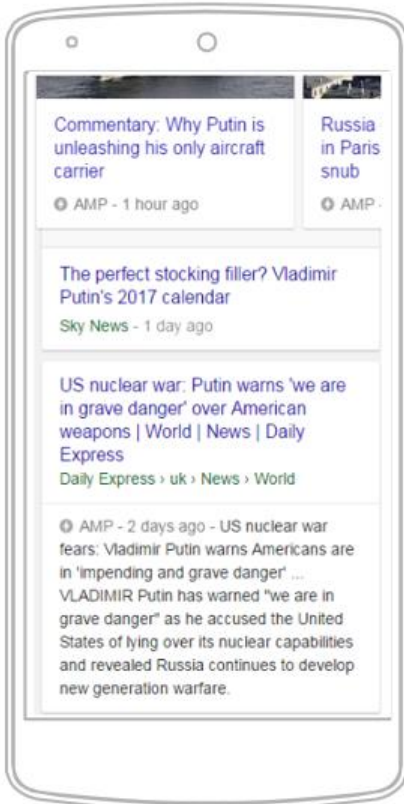

Because mainly traffic is coming from mobile devices, to improve user experience for our mobile users, we have created **Pangea AMP articles**. Accelerated Mobile Pages (AMP) Project is an open source initiative that publishers can create mobile optimized content once and have it loaded instantly everywhere.

Please, be aware that Google currently supports AMP technology in **12 countries** only: Brazil, Germany, Spain, France, United Kingdom, India, Indonesia, Italy, Mexico, Japan, Russia, United States.

Only websites that produce content to **those countries** can expect their content to **be visible AMP** Pangea articles on Google search pages on the local market. More info on the AMP project can be found on the official web site <https://www.ampproject.org/>

Google search page

Pangea AMP article

- **Polygraph site: Joint VOA and RFE/RL project**

Pangea Digital Team has been working a new site Polygraph, for which we create a new FactCheck content type offering editors to write the statement with the information of an author and add a verdict. For new content type, we developed FactCheck archive page and new widget layout.

Representative FactCheck

- **Sharing content on the Responsive Web Sites**

We created a new "**Responsive.Sharing**" configuration key which -- if you are a web admin -- allows you to enable any social network you want to use for sharing. You can see all of possible sharing social network as a default value in the system configuration. You can also set the order - as they are written, they will be displayed.

- **Telegram - for sharing and adding to Follow us widget**

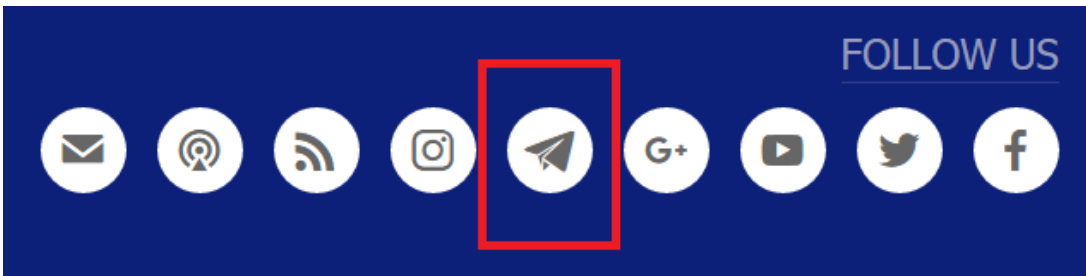

We received couple requests from services to be able to share content with Telegram. When you want to share a content with Telegram, add "Telegram" to "**Responsive.Sharing**" configuration key. Please, do not forget to localize "**MobileSite.Social.ShareOnTelegram**" key for the text displaying on the Telegram share button.

مشرق وسطیٰ
اکتوبر 13, 2016

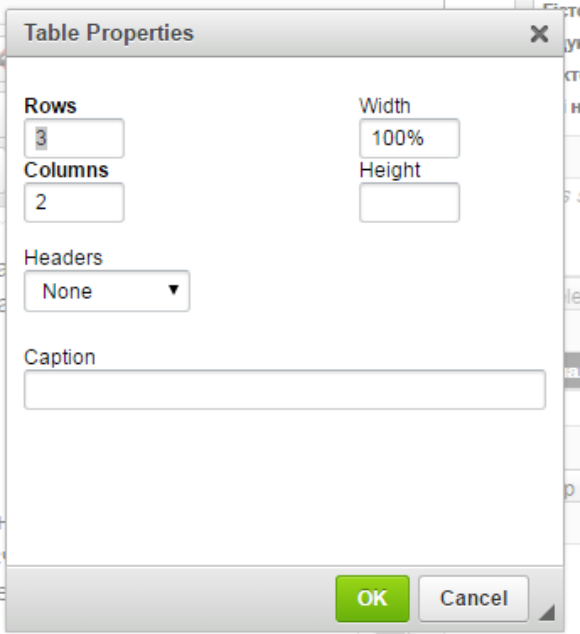

After Pangea Release 7.13, you can add Telegram to Follow us widget. If you are interested, please set up account in the System Configuration with "**MobileSite.Social.Telegram.UrlFollow**", localize text for the title of the button with "**MobileSite.Social.FollowOnTelegram**" localization key and add it to the widget by writing Telegram to "**Responsive.FollowUs**" the key in the System Configuration.

Support of Tables on the Responsive Web Sites

During our review process all the HTML elements available CKEditor we've realized a poor support of <TABLE> . This has been fixed as of Pangea 7.13 display, including all already created tables. We simplified settings for editing a table in CKEditor up to the functionality.

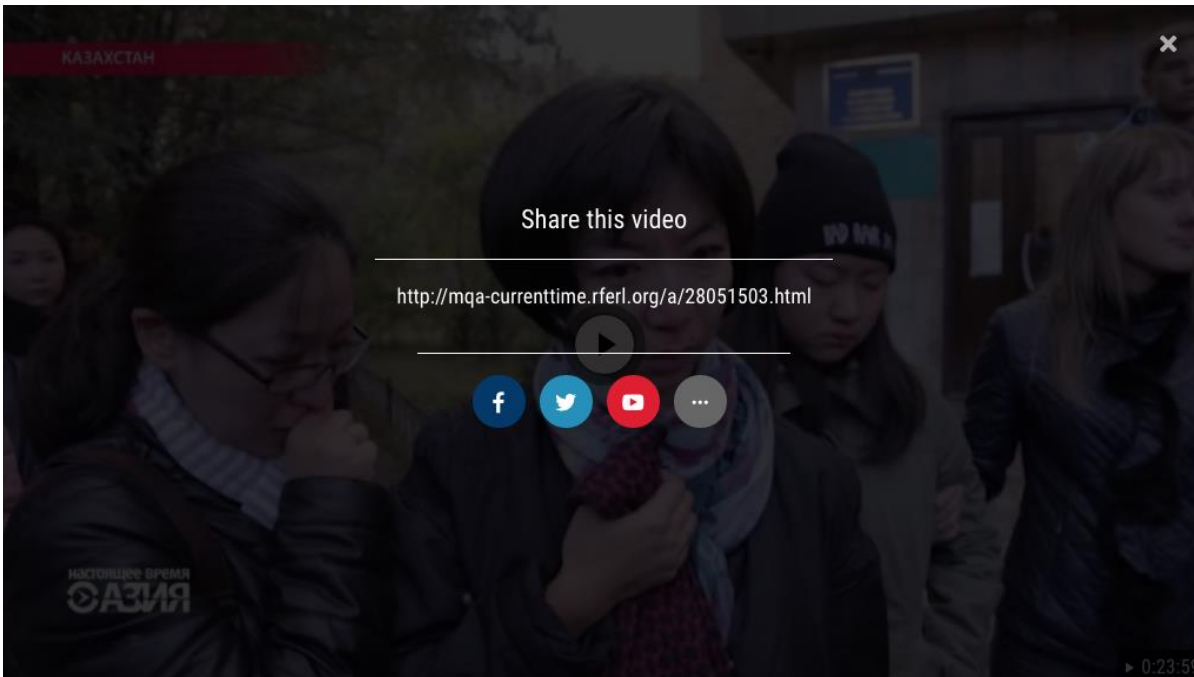

CkEditor in Pangea CMS	On a page																												
	<ul style="list-style-type: none"> • Узьбівайце ў блэндэры на працягу 5 хвілін на высокай хуткасці. • Працадзіце праз дробнае сіта. • Захоўвайце малако ў шчыльна закрытай шкляной ёмістасці 2 дні. • Карысная парада: не выкідвайце мякаць, выкарыстоўвайце яе для здоровага печыва, расьлінных «катлет» ці дадайце яе ў кашу на сьняданак. <table border="1" data-bbox="836 913 1339 1165"> <thead> <tr> <th>Прадукт*</th> <th>Колькасць</th> <th>Час замочвання</th> <th>Колькасць вады**</th> </tr> </thead> <tbody> <tr> <td>Міндаль</td> <td>1/4 кубкі</td> <td>6 гадзін</td> <td>1/4 кубкі</td> </tr> <tr> <td>Арэхі кешу</td> <td>1/4 кубкі</td> <td>2 гадзіны</td> <td>1/4 кубкі</td> </tr> <tr> <td>Фундук</td> <td>1/4 кубкі</td> <td>6 гадзін</td> <td>1/4 кубкі</td> </tr> <tr> <td>Гарбузовыя семкі</td> <td>1/4 кубкі</td> <td>4 гадзіны</td> <td>1/2 кубкі</td> </tr> <tr> <td>Сланечнікавыя семкі</td> <td>1/4 кубкі</td> <td>4 гадзіны</td> <td>1/2 кубкі</td> </tr> <tr> <td>Кунжутныя семкі</td> <td>1/4 кубкі</td> <td>1 гадзіна</td> <td>1 кубак</td> </tr> </tbody> </table> <p>* Калі вы хочаце, каб ваша малако мела салодкі смак, дадайце некалькі сушаных фінікаў або курагі бяз костак ці падсаладзіце стэвіяй.</p>	Прадукт*	Колькасць	Час замочвання	Колькасць вады**	Міндаль	1/4 кубкі	6 гадзін	1/4 кубкі	Арэхі кешу	1/4 кубкі	2 гадзіны	1/4 кубкі	Фундук	1/4 кубкі	6 гадзін	1/4 кубкі	Гарбузовыя семкі	1/4 кубкі	4 гадзіны	1/2 кубкі	Сланечнікавыя семкі	1/4 кубкі	4 гадзіны	1/2 кубкі	Кунжутныя семкі	1/4 кубкі	1 гадзіна	1 кубак
Прадукт*	Колькасць	Час замочвання	Колькасць вады**																										
Міндаль	1/4 кубкі	6 гадзін	1/4 кубкі																										
Арэхі кешу	1/4 кубкі	2 гадзіны	1/4 кубкі																										
Фундук	1/4 кубкі	6 гадзін	1/4 кубкі																										
Гарбузовыя семкі	1/4 кубкі	4 гадзіны	1/2 кубкі																										
Сланечнікавыя семкі	1/4 кубкі	4 гадзіны	1/2 кубкі																										
Кунжутныя семкі	1/4 кубкі	1 гадзіна	1 кубак																										

Video sharing option

To increase social media sharing of live and on-demand video content, we have implemented a sharing option to the video player. The options displayed in sharing overlay can be configured in CMS.

Clicking the option will open player sharing overlay:

Simple captcha on Subscribe page

Because our IP were relisted on Spamhaus on a blacklist and all Hotmail and Yahoo domain users were not receiving newsletter, we had to apply our Simple captcha on the Subscribe pages. If you have not localized the Simple captcha yet, please go to Localization and translate all "**SimpleCaptcha**" keys. Couple services have been using the simple captcha since the Pangea Release 7.12 for Pangea comments if enabled.

New layout – code name “Fred”

We developed a new widget layout for the content widget with black background, having a code name “Fred widget”. After Pangea Release 7.13, users will be able to change the layout and to have the tile of the content across the images. There is not possible to display introduction, but the layout has all general settings (display a zone/ label/ time).

New layout in Pangea CMS

New layout on responsive

Big Image Widget - enable introduction

Based on the demand, we have enabled displaying introduction on the "Big Images"

		<h3>Priority</h3> <hr/> <p>Et wisi option qui, mei ei sanctus detracto</p> <hr/> <p>wadwad + table</p> <hr/> <p>test kocka</p> <hr/> <p>[tkr] Test article</p> <hr/> <p>Test Infogram</p> <hr/> <p>Test</p> <hr/> <p>Hana tests search</p> <hr/> <p>Lorem ipsum</p>
<p>Teaser title from the widget</p>	<p>Et wisi option qui, mei ei sanctus detracto</p>	
<p>Teaser intro from the widget</p>	<p>Sit ridens utamur corrumpit ut, has iriure vivendo ad, sit wisi aeterno lobortis an. Qui ut labitur menandri signiferumque, quo an prompta detracto. Eum no modo discere, ad vix pertinax sensibus</p>	
	<p>footer</p>	

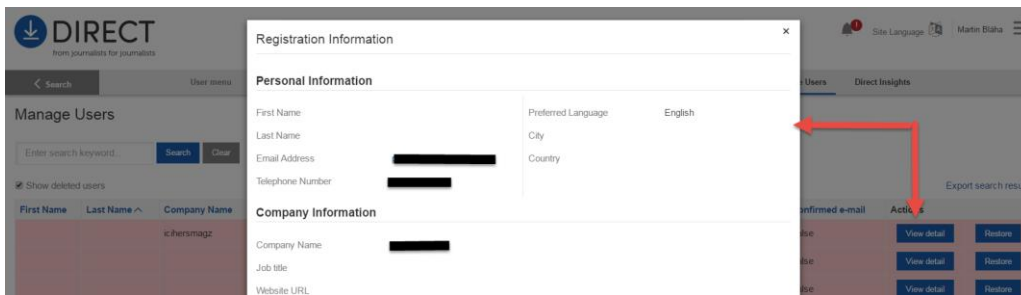

BBG Direct Improvements

During this release we were focusing mainly on the performance with stability improvement, secondly we've adding a few features to the Administration

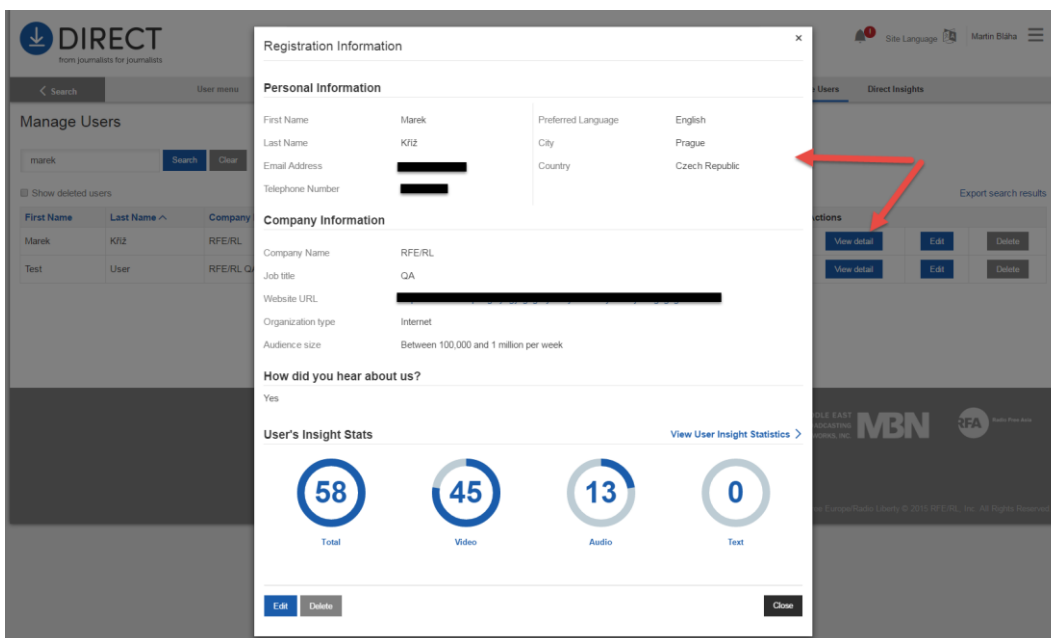

- **User management**

For deleted users was added new feature to able check their details which you could not before. So if you go to user management and check "Show deleted users" you will still get the same list of users as you know it. But new is button to display details "View detail" which provide you all the information like the user is active. We are counting with following feature to include a reason why was user/affiliate deleted.

- **User management – quick insight about user statistics**

To make decisions for administrators about previewed user easier in the way like to keep user active or disable him, we are bringing quick overview about user activity directly into his "View detail" information. Provided numbers are counted from the time of first registration of particular user so if you as administrator would like to get more detailed information about user activity you have shortcut link leading you directly into Direct Insight where you can see more. In this pop-up window you can easily decide if you want to delete user right the way or spectate some others.

New Localization Keys

New keys will be ready for translation in Pangea CMS as latest on Friday Oct-21, to localize the keys navigate to **Settings | Site Localization**.
