

SHAREHOLDERS

58.55% TELIASONERA

TeliaSonera provides telecommunication services in the Nordic and Baltic countries, the emerging markets of Eurasia, including Russia and Turkey, and in Spain. TeliaSonera is also the leading European wholesale provider of quality cross-border voice, IP and capacity services, provided through its international carrier network.

TeliaSonera offers services that help people and companies communicate in an easy, efficient and environmentally friendly way. TeliaSonera's main purpose is to best serve its customers and to create value for shareholders through strong profits and cash flows.

TeliaSonera creates value by continuously exploiting new business opportunities on its mobile and broadband networks, such as mobile data and IPTV, and expanding in the fast growing markets of Eurasia. TeliaSonera aims to lead the migration to new mobile and Internet-based services in the Nordic and Baltic markets.

In 2009, the number of subscriptions reached approximately 148 million in the majority-owned operations and associated companies. Net sales were approximately USD 14.3 billion. The number of employees was about 30,000. TeliaSonera is listed on the NASDAQ OMX Stockholm and Helsinki Stock Exchanges.

41.45% TURKCELL

The largest provider of mobile communication services in Turkey, Turkcell is also a leader in introducing mobile communications services to emerging countries.

Turkcell is the leading provider of mobile communication services in Turkey. The phenomenal growth experienced by Turkcell since its establishment in 1994 reflects the company's commitment to delivering superior voice quality, network coverage and customer satisfaction. Service quality, coverage and strong distribution, combined with successful marketing communications, have made Turkcell the premier mobile communications company in Turkey.

Acquisition of ISO 9001 certification confirms Turkcell's position among the elite of GSM operators worldwide. Advanced software and hardware applications put Turkcell on the leading edge of mobile telecommunications.

As a large-scale GSM operator in a fast growing market, Turkcell has gained global acceptance and recognition. In July 2000, Turkcell became the first Turkish company to be listed in the New York Stock Exchange, floating 10.5 % of its share capital through an IPO. It is traded under the symbol TKC.

Developing technologies and converging platforms is speeding up the creation of new products and services. Working with its partners, affiliates and suppliers, Turkcell is attuned to the vast possibilities of convergence of technologies and excited to offer these to its customers. The next stage of innovation will center on data usage for communication, transforming Turkcell into a multimedia service provider. Mobile video and mobile broadcasting-conferencing, video telephony, mobile banking, m-money and m-commerce, will shape market dynamics. Turkcell is positioned to lead the introduction of these new technologies.
