PUTIN'S WITNESSES

A FILM BY VITALY MANSKY

Putin's Witnesses documents the events that followed the unexpected resignation of Russian President Boris Yeltsin in December 1999 and brought Vladimir Putin to power. Russian filmmaker Vitaly Mansky, one of Russia's preeminent documentary filmmakers, was both witness and participant. Says Mansky, "My testimony is very important not only for Russian society – to cure it from an advanced illness, but also to other countries – to prevent them from losing their freedom."
